In two sessions, participants will experience success in these critical topics:

You have strengths and talents, but have you ever wondered how they can bring positive change to your communities?

- Learn about your strengths and how to contribute best!

You have an important life story, but do you know how yours can impact and motivate others?

- Learn how to facilitate change in your community and positively influence other people!

You have personal values you live by, but did you know they can help direct your passions to where you want to be?

- Learn how to network and connect with other like-minded individuals!
